

Magnum Ink Cleaner for Water- and UV-based Inks

**Cleans aqueous and
UV inks and coatings!**

Clean Safely and Minimize Downtime

Magnum Inks & Coatings™ offers its multipurpose, environmentally friendly Magnum Ink Cleaner for removing many inks, coatings and varnishes from virtually any surface on or around your press. Magnum Ink Cleaner is easy to use and cleans quickly and safely, minimizing your press downtime.

Characteristics

Our powerful, innovative Magnum Ink Cleaner is:

- Easy to use for quick cleanup
- Water-based, low-VOC and Non-Hazardous
- Non-flammable
- Environmentally safe
- Ideal for food packaging manufacturing
- Low-odor
- Made in the USA

Safely Clean Everything on your Press

Magnum Ink Cleaner effectively cleans multiple chemistries including water, oil and UV-based inks, coatings and varnishes from:

- press blankets
- anilox rollers
- photopolymer plates
- rubber and plastic
- rugs and other cloth material
- painted or varnished surfaces*
- cement floors
- ...and more!

**Pre-testing is recommended before using on painted or varnished surfaces or on Anilox rollers on coating units.*

Note: Always rinse with potable water after use.

Magnum Inks & Coatings cannot anticipate all conditions under which this information and our products may be used. All applications should be tested before using on a press. We accept no responsibility for results obtained by the application of this information or the safety and suitability of our products, either alone or in combination with other products. Please contact Magnum's technical personnel for more information.

Quality Control

Careful quality control measures in place at our manufacturing facility in Ohio ensure that our products will perform consistently and match colors precisely every time. Each batch is manufactured following strict standard operating procedures, tested using quantitative color management tools, and monitored with statistical process controls.

Responsiveness

Our obsession with quality extends to our service. We understand the demands for quick, hassle-free cleanup on printing production lines, and the need to minimize press downtime. As your printing ink partner, we will be responsive to your ink needs and aim to deliver innovative products in order to ensure your success.

Technical Savvy

Aside from full on-site laboratory capabilities, our talented technicians boast experience in multiple sides of the commercial printing industry, from manufacturing to commercial package printing. Our company employs the experience and technical know-how that comes from decades specializing in printing inks and coatings.

Custom Solutions

Solving unique problems is our specialty. We thrive where other ink manufacturers' off-the-shelf solutions simply won't do. If you've got a specialty ink or coating need, or have had trouble finding a manufacturer to match a particular color, we're up for the challenge. We invite you to make us your printing ink partners.
