TRACK RECORD FOR QUALITY ROD COATINGS.

Magnum Inks & Coatings **CorrPrint RC** water-based rod coatings are designed to withstand heat, moisture, and abrasion of corrugated manufacturing. With excellent printability and a glueable coat, Magnum inks deliver consistent performance on rod coaters with very low rod wear and exceptionally smooth coating lay on the substrate.

- Rod coating colors are available in standard GCMI, Pantone® or custom matched colors.
- Magnum's CorrPrint RC ink system is easy to clean between production jobs.
- We pride ourselves on providing lightning-fast delivery of the highest quality color matches.
- Magnum has great success reducing waste and customer rejection with formula correlation to your equipment.

AQUEOUS ROD COATINGS

- **CorrPrint Waxable White**
Designed to maintain desired after-wax brightness and opacity while minimizing rod wear. Our customers enjoy increased uptime while running CorrPrint Waxable White.
- **CorrPrint Dense Black**
Features exceptionally jet-black color and hot rub resistance. Available in flat, satin, and conductive configurations that can be adjusted to meet your specifications.
- **CorrPrint Colors**
Available in standard Pantone® PMS, GCMI, or custom-matched colors tested using quantitative color measurement tools. Lightfast, pearlescent, and metallic coatings also are available.

We know your business is unique. Magnum Inks & Coatings can quickly help. Let us show you how **CorrPrint RC** will enhance reliability and consistency in your processes.
