Quality Control

Careful quality control measures in place at our manufacturing facility in Ohio ensure that our products will perform consistently and match colors precisely every time. Each batch is manufactured following strict standard operating procedures, tested using quantitative color management tools, and monitored with statistical process controls.

Responsiveness

Our obsession with quality extends to our service. We understand the demands for excellent, hassle-free performance that characterize the food package printing industry. As your printing ink partner, we will be responsive to your ink needs and aim to deliver innovative products in order to ensure your success.

Technical Savvy

Aside from full on-site laboratory capabilities, our talented technicians boast experience in multiple sides of the commercial printing industry, from manufacturing to commercial package printing. Our company employs the experience and technical know-how that comes from decades specializing in printing inks and coatings.

Custom Solutions

Solving unique problems is our specialty. We thrive where other ink manufacturers' off-the-shelf solutions simply won't do. If you've got a specialty ink or coating need, or have had trouble finding a manufacturer to match a particular color, we're up for the challenge. We invite you to make us your printing ink partners.
